A schematic diagram of a three-way valve. It features a vertical line with a T-shaped handle at the top. At the bottom of this vertical line is a ball symbol (a circle with a cross inside). From the left side of the ball symbol, a horizontal line extends to the left, ending at the label '1;2'. From the right side of the ball symbol, a horizontal line extends to the right, ending at the label '3'.

A schematic diagram of a three-way valve. It consists of a central square box representing the valve body. A horizontal line enters from the left, labeled '2', and another horizontal line exits to the right, labeled '1'. A vertical line enters from the top, labeled '3'. Inside the square box, there is a circle representing a ball, which is positioned to allow flow from port 2 to port 1, while port 3 is closed.
