Horizontalinis

Pririšimo brėžinys

The drawing consists of three parts. The top-left part is a vertical view showing a vertical shaft with a pump head at the top and a coupling at the bottom. The bottom-left part is a horizontal view showing the pump head and coupling from above. The right part is a connection diagram showing three points: a fixed point (top-left), a pivot point (bottom-left), and a connection point (top-right). The distance between the fixed and pivot points is 11.09, and the distance between the pivot and connection points is 7.00. The connection point has coordinates $x = 6061818.23$ and $y = 580664.82$.
