Pririšimo brėžinys:

A hand-drawn diagram showing a vertical line with several points and distances. The line is labeled with points at the top and bottom, and distances between points. The distances are labeled as follows:

- From the top point to the first point below it: 28
- From the first point to the second point below it: 17.72
- From the second point to the third point below it: 17.15
- From the third point to the fourth point below it: 15.40
- From the fourth point to the fifth point below it: 13.84
- From the fifth point to the sixth point below it: 16.94
- From the sixth point to the seventh point below it: 14.75
- From the seventh point to the eighth point below it: 10.00
- From the eighth point to the bottom point: 20

The points are marked with small circles. The distances are labeled next to the line segments. The diagram is oriented vertically, with a north arrow pointing upwards on the right side.

Horizontalis: 3.30
