IRENGINIO PJŪVIAI (matmenys duoti m)

## SASAJOS SCHEMA

A diagram illustrating a geometric configuration. It features a large rectangle with a smaller rectangle attached to its top edge. The smaller rectangle is labeled with the value '0.88'. Below the large rectangle, there are three circles labeled '1', '2', and '3'. Circle '1' is positioned to the left of the large rectangle, circle '2' is to its right, and circle '3' is further to the right. The circles are arranged in a way that suggests they are tangent to each other and to the large rectangle.

A diagram of a cell. A large circle represents the cell membrane. Inside this circle is a smaller dashed circle representing the nucleus. Two lines, labeled '2', point to the dashed circle. Two lines, labeled '3', point to the space between the dashed circle and the outer circle. One line, labeled '1', points to the outer circle.
