

The image contains two technical drawings of a valve assembly, labeled 'a' and 'b'.

Verticalis (a): This is a side-view cross-section of a vertical valve. It features a main rectangular body with a smaller rectangular section on top. A horizontal pipe, labeled '2', enters from the left and connects to the body. On the right side, there is a vertical pipe labeled '3' with a horizontal flange labeled '3a'. A circular component, labeled '1', is located inside the main body.

Horizontalis (b): This is a top-down view of a horizontal valve. It shows a circular body with a dashed circle inside. A horizontal pipe, labeled '2', enters from the left. On the right side, there is a horizontal pipe labeled '3-3a' with a circular flange. A diagonal line, labeled '1', points to a component inside the body.
