The drawing consists of two parts. The upper part is a cross-section labeled 'A-A' showing a trapezoidal culvert. The top width is 108.23, and the bottom width is 190. The side walls are sloped. The lower part is a plan view of the culvert, showing a circular shape with a diameter of 190. The center is marked with a dot. The plan view shows the culvert's position relative to a road, with dimensions 106.85 and 106.99 from the center to the road edges. A 150-unit dimension is shown from the bottom center to the road edge. The road is labeled '1' and the culvert is labeled '2'. An arrow labeled 'A' indicates the direction of the cross-section.
